

1) Graph the line using $y = mx + b$ form:

$$y = \frac{1}{2}x + 3$$

b =

m =

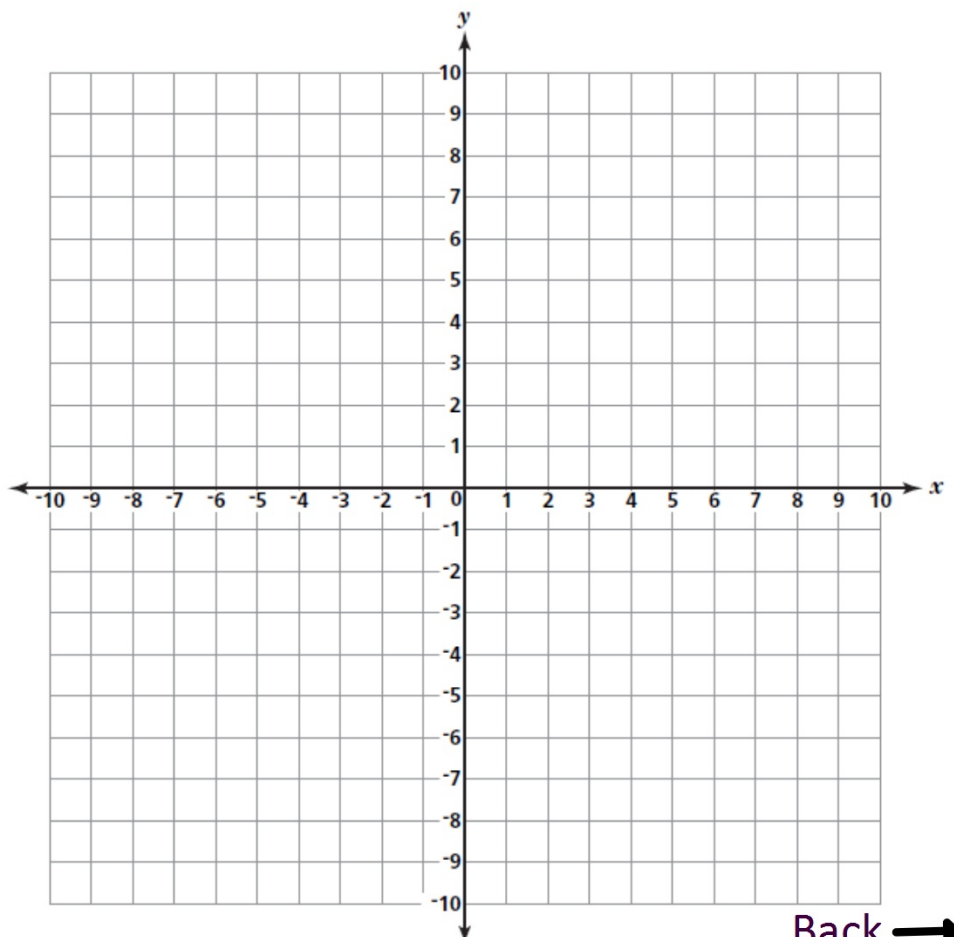

2) Graph the line using $y = mx + b$ form:

$$y = -2x - 1$$

b =

m =

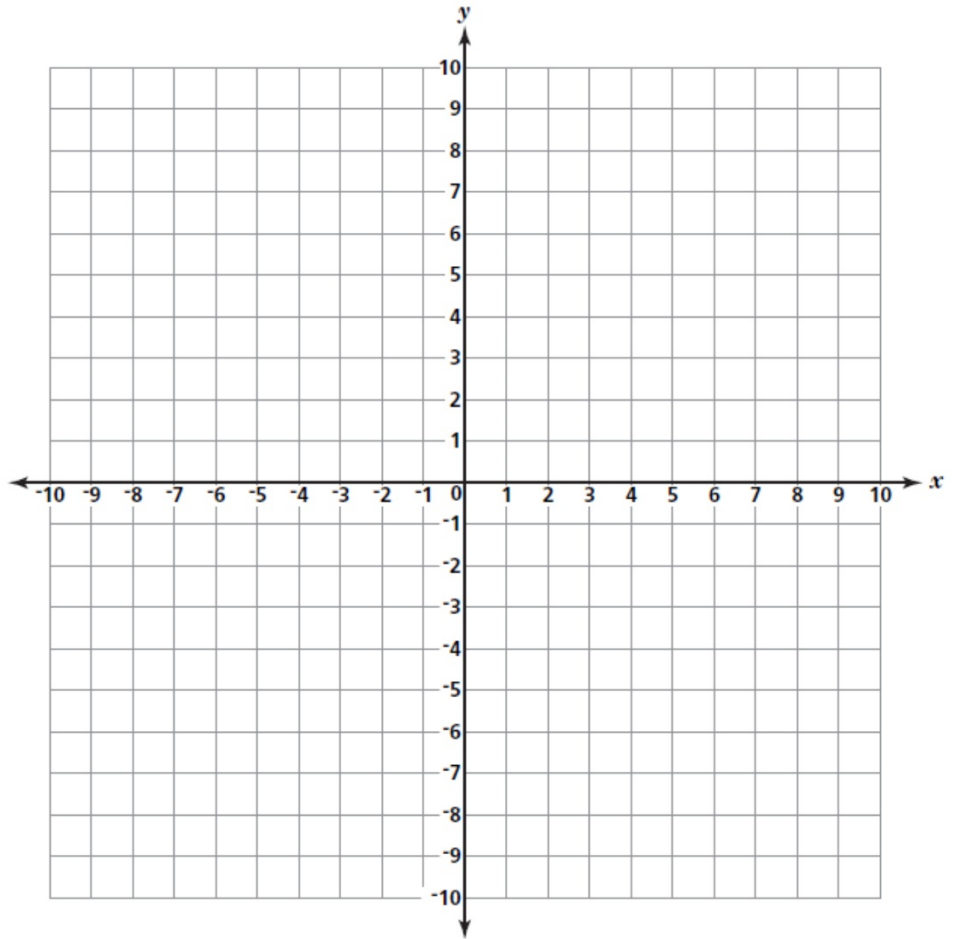

Back →

3) Graph the line using $y = mx + b$ form:

$$y = -x$$

b =

m =

4) Graph the line using $y = mx + b$ form:

$$y = -\frac{1}{3}x + 6$$

b =

m =
